†This is a separate annual limit. Treatment required as a result of an accident/injury will be subject to the individual treatment maximums as identified in your benefit schedule.

More about your dental benefits

We want you to take advantage of the benefits that you are entitled to, therefore we have kept your schedule of benefits really simple, highlighting the main points that we think you should be aware of.

The schedule overleaf and above states the maximum amounts that will be reimbursed to you per policy year. In addition to those on the schedule we also provide you with the following benefits:

Family cover

The maximum benefits in the schedule overleaf can be claimed separately for each insured adult. Please note that the benefit limits will be shared between any number of children covered under the policy.

NHS reimbursement

As standard, we reimburse NHS treatments in their entirety under all plans up to your annual limit. Any treatment not listed on this schedule will be reimbursed at the amount you would pay if you received the treatment under the NHS.

Treatment abroad

Dental treatment is not limited purely to the UK. Simply obtain a receipt, in English, and submit a claim form on your return to the UK. You will be reimbursed according to this benefit schedule, using the exchange rate in force at the date the claim is settled.

Don't be a stranger! If you are unsure about your benefit entitlements, or would like confirmation of what reimbursement you will receive for any proposed treatment, please call us on **020 7488 9880** or visit www.nationaldental.co.uk.
